

## BTS-Reifenpackmaschine Gen.2

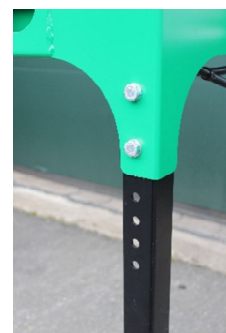

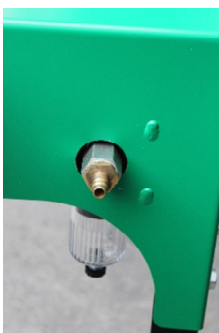

The BTS-Tyre Packing Machine Gen.2 is ideal for used tyre companies with large tyre volumes. The triple machine is the perfect solution for cost-effective disposal or resale of second-hand tyres. By doubling or tripling the tyres you achieve an enormous volume reduction, the available storage and loading capacity, as well as the permissible transport weight can be used much more efficiently.

Pressing cylinder: Pneumatic  
Pressing force: 1.23 kN, adjustable  
Machine size: 1250 H x 1930 W x 660 D mm  
Machine weight: 93 kg  
Transport size: 1250 H x 1200 W x 800 D mm  
Working height: 800 - 1020 mm, adjustable  
Power supply: Air, up to 10 bar / 145 Psi  
Working pressure: 6 - 8 bar

- User-friendly and safe two hand control
- Strong and long-life design
- High-performance pneumatic cylinder
- Ball bearing roller guides

- Adjustable working height
- Low noise level by silencer
- Air quick connector
- A quality product "Made in Germany"

Suitable for doubling and tripling

- Second-hand tyres

Optional extras

- Machine colour RAL
- BTS-MF550HD Tyre Baler
