

BTS-MF60HD

blue-line

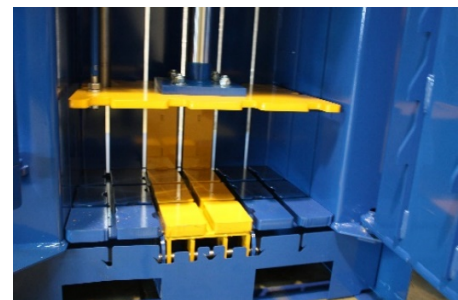

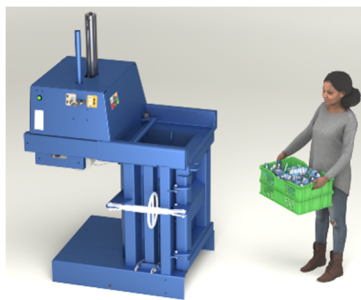

The BTS-MF60HD is the ideal special waste baler for compacting your difficult and hard materials such as cans, PET, metal buckets, metal containers, but also plastic canister and much more recyclable materials can be compacted easily and safe to a minimum of its size. The special waste baler impresses with its ease of use and safe operation, finished bales can be easily removed with the automatic bale ejector.

By baling these valuable and recyclable materials you achieve a volume reduction of up to 90%, a significant saving on your disposal costs and you properly return the material back into the recycling cycle.

Pressing force: 13 Ton
 Bale weight: 25 - 60 kg (material depending)
 Bale size: 650 H (var.) x 600 W x 400 D mm
 Machine size: 2144 H x 1267 W x 1328 D mm
 Machine weight: 706 kg
 Transport height: 2144 mm
 Loading aperture: 890 H x 600 W x 400 D mm
 Cycle times: 25 seconds
 Motor: 2.2 kW 16 Amp
 Power supply: 220 - 240 V (1 phase)
 Noise level: 68 dB

- Top loading Special Waste Baler
- User-friendly lever control
- Automatic bale kicker for easy bale removal
- Retainers for reducing the material spring back

- Cross Strapping Tying System to keep difficult materials in bale
- Reel holder for 7 rolls of strapping
- A quality product "Made in Europe"

Suitable for compacting

- PET bottles
- Cans and sheet metal containers
- Canister and plastic containers
- Cardboard and plastic film and foils

Optional Extras

- Machine colour RAL
- Strapping rolls
- Power supply 380 - 400 V (3 phase)
