

**BTS-Drum Crusher**

**blue-line**

The BTS-Drum Crusher is ideal for compacting 30 to 220 Ltr drums / barrels, but also plastic and cardboard drums can be easily reduced to their minimum of volume. In many cases this compacted material can then even be marketed again. The drum press impresses with its ease of use, safe operation and high throughput quality. By crushing these valuable and recyclable materials you achieve a volume reduction of up to 90%, a significant saving on your disposal costs and you properly return the material back into the recycling cycle.

Pressing force: 24 Ton  
Machine size: 2587 H x 1190 W x 1000 D mm  
Machine weight: 690 kg  
Transport height: 1800 mm  
Compaction rate: 8:1  
Cycle times: 40 seconds  
Motor: 11 kW 32 Amp  
Power supply: 380 - 400 V (3 phase)  
Noise level: 68 dB

- User-friendly lever control
- Compaction head with spikes to punch the drum to drain out any residual liquids
- Maximum safety standards by totally enclosed chamber

- 30 Ltr. collection tray with tap connection
- Useable for 30 to 220 Ltr. steel drums, plastic drums and cardboard drums
- A quality product "Made in Europe"

Suitable for compacting

- Steel drums
- Plastic drums
- Cardboard drums
- Fiber and paper drums

Optional extras

- Machine colour RAL
- Can and filter crush insert
- PLC auto compaction cycles
- Multi head to compact inside a 200 Ltr steel drum
